

Intelligent Manufacturing Changes Future

Intelligent Manufacturing Changes Future

As a global enterprise, HSG sticks to providing professional and convenient service support to customers at home and board

- Professional Training**
Multiple technical training service and free operation training for customers and dealers in time
- Efficient Support**
Humanistic service model, online services and 7*24 hotline to offer solutions and assistance
- Optimized Transport**
Multi-channel transport solutions and professional transport solution team will provide various transport cases for to satisfy the demand of customers and save transports fees
- Sufficient Accessories**
Highly efficient accessories delivery service, multiple network inventory jointly responds to accessories demand to shorten customer's waiting times and accelerate production
- Careful Services**
Domestic door-to-door service and free proofing, global 100+ dealers provide efficient and convenient services

Plasma Systems Inc.

Company Culture

MISSION

Intelligent manufacturing changes future

VALUES

Customer-focused and employee-based

VISION

Become a respectable enterprise in the global metal forming equipment field

Company Profile

13
Global Branches

100+
Countries Covered

4
Manufacturing Bases

8000+
Delivery Capability

30+
Global Service Outlets

96,000 m²
Occupied Area

GX3000-6000W

Double Exchange Platforms Laser Cutting Machine

Technical Parameters

Technical Parameters	G3015X
Power	3000W-600W
Processing format (L*W)	3048 mm*1524mm
XY-axis positioning accuracy	±0.03 mm/m
XY-axis repositioning accuracy	±0.03 mm
No-load speed	140m/min
Acceleration	1.5G
Safety Certification	TUV CE

* Machine appearance, technical parameters, function description, data comparison shown in this page are from HSG in-house laboratory. All testing results and experimental data shall be subject to real machine.

HSG Bus-based Control System

- EtherCAT bus high-speed response with strong anti-interference capability and simple electrical maintenance.
- Support absolute value and continue in outage and at the break-point for convenient remote diagnosis and servo adjustment.
- Automatic management of machine maintenance, core components are monitored in real time for easy and maintenance reminded on a regular basis.

Follow-up Response Technology

- High sensitivity detection of striker plate.
- High speed follow of vibrating sheet.
- Automatic obstacle avoidance.

Fully Functional Processing Technology

- High-speed microjoining, nano microjoining, counterbore technology and non-inductive perforation.
- Manual, automatic tracing-edge and anti-collision beam.
- Leftover bits and pieces cutting, coaxial visual sensing and automatic replacing nozzle.
- Common side cutting to reduce leftover bits and pieces and save energy.

Professional Nesting Software with Standard Configuration

- High nesting utilization ratio as famous nesting software.
- Simple operation with drawing function and support manual and automatic nesting.
- Support different materials and thicknesses categorized typesetting.
- Excel batch import.

Support Graphics and G Code Software

- By code conversion software, Alpha T can support other brand equipment for super high compatibility.

Smart Factory and Standard Central Control System Interface Intelligent management

- Integrate with material tower and automatic loading and unloading equipment to create automatic production lines.
- Intelligent system to form production report by one click.

Machine Foundation

*The marked size has about 10 mm error
